Ontario Population Projections, 2019

However, life expectancy is assumed to remain steady in the short term due to impacts of the pandemic and the opioid crisis and commences to increase at a gradual pace in 2021—22. Within the 15—64 age group, the number of youth those aged 15—24 is projected to increase throughout the projection period, from 1. The calculation starts with the base-year population 2019 distributed by age and sex.

Censuses

Residents are encouraged to prepare for any local emergency by ensuring each family member has a 14- day emergency supply kit, including any necessary medications. The first of these parameters, the total fertility rate TFR , reflects the level of fertility while the other three parameters the mean age at maternity, the skewness and the variance of the distribution reflect the timing, or age, at which women have their babies. Manuscript slave schedules, 7th and 8th Censuses, 1850, 1860.
