Perfume and flavor chemicals [aroma chemicals]. (1969 edition)

The entries have not only the chemical name but any trade names or variations under which a material sold, the chemical structure, a word on its uses or potential uses, a note on how it is produced, as well as killer little descriptions of its smell and taste. In the end, it is definitely a set you may want to consider. Has been suggested for use in artificial Civet bases, but the author finds that this odor type is not the desirable one in the Civet odor complex.

Perfume and Flavor Chemicals: (aroma Chemicals)

Mature markets—North America, Western Europe, and Japan—accounted for less than half of 2018 consumption value; developing markets—Latin America, Central and Eastern Europe, the Middle East, Africa, China, and Other Asia—made up the remainder. They are an excellent addition to the more common Arctander Perfume and Flavor Material of Natural Origin.

The potential for growth is greater in China, Other Asia and Oceania especially India, the Philippines, and Thailand , and the Middle East than in the comparatively mature markets of North America, Western Europe, and Japan. It is without doubt an encyclopedic treatment of aroma chemicals organized in a very practical way.
