Forecasting inflation

We find, of course, that our predictions are invariably wrong, sometimes by a little, sometimes a lot. Co-integration, Error Correction and the Econometric Analysis of Non-Stationary Data, Advanced Texts in Econometrics, Oxford University Press: Oxford.

Irish Adspend Forecast to Rise by 8% in 2021 According to MAGNA

Projections for residential construction typically take account of demographic trends, housing stocks, real income and financial conditions, but also draw on cyclical indicators for the construction sector. Within the same period, only two false signals are generated by the CLI.

Alice: A New Inflation Monitoring Tool

Important additional considerations relate to productivity trends, capacity constraints and costs.
