Biggest Solar Flare on Record

Craig Hamilton-Parker, a leading British psychic and medium who runs Psychics.

What is a solar flare?

Ask any Police Officer if there is more criminal behavior on and around full Moons, and the answer is always yes. More advance warning of potentially damaging CMEs headed for Earth would give utility companies some time to scale back power generation to try and mitigate the effects of geomagnetic currents. There could be food riots as a consequence.

Solar flares

On the Sun's surface are huge magnetic loops called prominences. When these loops hit each other, they make a solar flare.
