### Glass (2019)

Talking heads are muttering at you through the screen in the corner.

### Find Trusted Glass Repair & Replacement Pros

Unfortunately, the LensCrafters website may not function properly on this browser.

### GLASS

Instead, it becomes a kind of frozen liquid or what materials scientists refer to as an amorphous solid.

### Glass

University of Chicago Press, 2002. It is made by cooling molten ingredients such as silica sand with sufficient rapidity to prevent the formation of visible crystals. Crumb had initially been written into the script for Unbreakable, but Shyamalan felt there were balancing issues with his inclusion and removed him from the story.
