### Bankenaufsichtsziele und Eigenkapitalbegriff. Krümmel, Hans

At least for the Federal Republic of Germany, innovations on the financial markets are not considered an obstacle to money supply orientation which, as a defensive strategy, primarily attempts to avoid mistakes and does not take it upon itself to exert ideal control over the economy. With respect to economic policy, the author sees Keynesian elements in the circumstance that the central banks by no means orient themselves exclusively to the trend of the value of money, but in making their decisions regard themselves as still constrained by trends in the value of money, the degree of employment and exchange rates.
