U.S. Strategy for Central America

An initial, general overview appears in Table 2.

Competition Policies in Emerging Economies: Lessons and Challenges from Central America and Mexico

Privatization and Opening Up to Competition: The Cases of El Salvador and Guatemala In contrast with the countries analysed in the preceding section, both El Salvador and Guatemala rejected the possibility of granting a period of exclusivity to the companies that acquired the former public enterprise and opted instead for immediately opening up the industry to competition. TACA filed several legal challenges to COPA operating a second daily flight on these routes, and on several occasions has succeeded in denying the Panamanian airline permission to land in El Salvador. In this way institutional deficiencies, particularly on the level of competition, can obstruct the development process by deterring economic agents from adopting salutary practices.

Smith, Bruce L. R. [WorldCat Identities]

This situation, due to the principle of egalitarian treatment and non-discrimination established by the LMT, left in contradiction and legal inconsistency all the constraints included in this matter in the concession contract of the mobile operator, CONATEL being obliged to amend the Concession Contract in these aspects, a situation which gave rise to dissent among the members of CONATEL, and which was interpreted by some as an example of inconsistency in sectoral policy on the part of the government, and as an irregular situation by others, even though the amendment was executed by a motion of the National Congress and was duly approved by Congress once it was made effective. .

Conferences in USA 2021

Schatan aggressive policy of takeovers. This appeal suspends execution of the resolution while the commission considers the appeal request within 60 days.

Washington Conference

There were three cases of arbitration for interconnection charges in mobile networks. Thus, the main aim of this book is to analyse the market distortions in that region, the legal and institutional competition instruments governments rely on and those that could be developed to face such distortions. As in other countries, the LGT assigns the operators themselves the task of agreeing on those charges.

Instituto Centroamericano de Administración de Empresas [WorldCat Identities]

Like many Executive Branch agencies, the under ministry tends to privilege short-term growth of investment and coverage, even at the cost of the development of competition Mariscal and Rivera, 2007. Belize is not included because not enough information on competition was available in that country.

It's Been Done Before: A Convention of the States to Propose Constitutional Amendments

There has been renewed interest in antitrust policies, in modernizing various regulations and achieving greater transparency in the way firms operate. The non-existence of a competition agency that could have established as a condition for the purchase of ENITEL that América Móvil should get rid of one of the mobile licences represents a serious problem for the development of competition in the sector.
