Behind the Castle Gate: From the Middle Ages to the Renaissance / Edition 1 by Matthew Johnson

He shows how castles functioned as stage-settings against which people played out roles of lord and servant, husband and wife, father and son.

Medieval Castles In Mathew Johnson's Behind The Castle Gate

Traditional studies have seen castles as compromises between the needs of comfort and of defence, and as statements of wealth or power or both. However, this interest has often been met with opposition amongst historians as to what these medieval strongholds symbolize. Obviously, performances are structured by the world in which they are set, and architecture is a way of manipulating that world.

Behind the castle gate: From medieval to renaissance — Northwestern Scholars

In fact, one can see that the setting significantly affects the characters, the social structure within the texts. AB - In this engaging book Matthew Johnson looks 'behind the castle gate' to discover the truth about castles in England at the end of the Middle Ages. Afterwards, Joshua Prawer reargued that the strategic placement of crusader castles was the single most important factor determining the crusaders 404 Words 2 Pages Ethnomethodology refers to the research method focused on the way that participants in a social setting create and sustain a sense of reality.

Behind the Castle Gate: From the Middle Ages to the Renaissance / Edition 1 by Matthew Johnson

Crusader castles were built to defend roads and passage ways and act as administrative centers and points and commerce for both Muslim and Christian people. The setting differentiates the texts by the way it shapes the characters and the social structure. In this engaging book Matthew Johnson looks 'behind the castle gate' to discover the truth about castles in England at the end of the Middle Ages.

Behind the castle gate : from medieval to Renaissance

Within five minutes I had to stop, laugh, reread the sentence in question, laugh harder, and then go back and read properly From over at Dreamwidth: Forget 'license to kill' - I want a ".
