## Universal Health Coverage and Primary Health Care within the Covid

First, all countries in cluster 1 have implemented regulatory reforms to sanction advanced practice. Health information systems in small practices: improving the delivery of clinical preventive services. Yet, NPs are not always recognised as primary care providers.

## Primary Health Care

Q3: What is the role of primary health care in responding to the Covid-19 pandemic? Pilot or small scale projects exist in France, Germany and Switzerland, triggered by new models of care or shortages in rural areas. At the same time, the distribution of Covid-19 vaccines will require a foundation of strong immunization and primary health care services in order to reach the most vulnerable populations and ensure their access to critical preventive care.

## Primary health care in Europe: the role of the health visitor

Informal practice was analysed separately.

## Universal Health Coverage and Primary Health Care within the Covid

Fulfilling this potential requires a significant increase in adoption of My Health Record across the health system.
