## RFA

It also enables researchers to analyse the effect of important changes to social housing policy that have occurred during the course of the cohort.

### **Collaborating with a social housing provider supports a large cohort study of the health effects of housing conditions**

In addition, several of the studies documented that participants reported a higher perceived quality of life and sense of choice. An analysis of crowding in New Zealand household 1986—2001.

## RFA

Homelessness Prevention and Rapid Re-Housing Program HPRP : Year 3 and Final Program Summary. Some study data are dependent on the accuracy of information that housing applicants and tenants supply to HNZC, which introduces potential for information bias of exposures and covariates.

## Housing

Although Scotland currently has the highest proportion of social housing, it has also seen the greatest decline — from 54% to 23%.

## Housing

Reviewers will assess whether the project presents special opportunities for furthering research programs through the use of unusual talent, resources, populations, or environmental conditions that exist in other countries and either are not readily available in the United States or augment existing U.

## RFA

This will have excluded those without a stable home, without a telephone and who were not available for interview due to work or other commitments. Those in urban areas also have to contend with higher levels of air pollution.

### **Exploring the relationship between housing concerns, mental health and wellbeing: a qualitative study of social housing tenants**

If the project includes data enhancements or produces longitudinal data from existing sources, the data sharing plan should ensure maximum availability for the research community beyond the study team accounting for human subjects considerations. Adcock R, Butler-Dines R, Chambers D, et al. Research shows housing vouchers reduce hardship and provide a platform for long-term gains among children.

### **Rent affordability in the affordable housing sector: literature review**

An example of a federal permanent supportive housing initiative is the HUD-VASH Veteran Affairs Supportive Housing Program, which combines HCV rental assistance for homeless veterans with case management and clinical services provided by the Department of Veterans Affairs VA. A review of 31 studies focusing on outcomes associated with the Housing First model showed that the model resulted in faster housing placements than traditional treatment-dependent programs as well as increased levels of housing retention, including among individuals with co-occurring substance dependence and mental disorders. It is up to social landlords and landlords in general to determine the balance between rents and housing needs of the local communities, with the general idea that rents should remain affordable to low-income households without the only viable way to be through housing benefits CIH 2013.
