How to make slipcovers

I REALLY NEED THAT BUTTON!! Seems like they were in office for eight. What a difference your slipcover made to this lovely curvy sofa — beautiful! But, it can also resist wrinkling, which may be a feature that you need.

Custom Tailored Sofa Cover & Loose Couch Slipcover

Even an expensive Italian sofa can have the rural appeal of a farmhouse, giving it a peaceful and endearing quality. Because the Ford décor was so new and was barely used before they were outvoted, the Carters chose to keep the Ford décor. At the center of the style are overstuffed comfortable furniture pieces and vintage furniture.

Making a Slipcover

The first panel is long enough to wrap around all four sides of the bench with a little extra for a front pleat. I'm making an attempt at making slipcovers for a love seat and sleeper sofa, I'm using a white denim or duck type cloth, I am not sure how to do my cushions, and am fretting over this, they have a piece of piping across center of front and are a bit curved on in the front and sides, flat across the back, kind of like this should I put the piping just across the front or could I still put it all the way around top and bottom, my couch is curved and a bit puffy in the back and no cushions.
