Incwadi Yami, Or, Twenty Years' Personal Experience in South Africa

In the early days of the Fields the gambling spirit so in- fatuated many of the diggers, that, not satisfied with the ex- citement of the day's luck, or ill- luck in the mine, they would prolong the accidents of fortune far into the night.

Everything was baked and parched as if it had been exposed for months to the blast of a large furnace. The scene, but for its sad- ness, would have been ludicrously grotesque. Kongota then proceeded to fan Nokahlela's suspicions as to the cause of the death of his wife, until he succeeded in con- vining him that the death was caused by Unjaba, and hav- ing done so, he confirmed Nokahlela's belief in the same man- ner as he had

that of Umjaba.

It may not perhaps be a matter of surprise that the inhabitants of a place, depending on a somewhat precarious industry and one of which the proceeds are so liable to fluctuation, should be more or less imbued with the spirit of gambling, nor is there anything unusual in the digger deserting his mining operations to endeavor to gain wealth in a more rapid manner by speculation.

With a princely air, which ill became his vulgar exterior he called for champagne, which we declined to drink, preferring to take a modest glass of spirits. THE climate of Natal I found extremely healthy, the average death-rate being only 10 per 1000 among the white population, while among the natives, judging from all inquiries, I do not think it amounted to half that number, though this is more or less surmise, as unfortunately among the latter no official returns were kept.
