Kukpu t'onggye chosa pogo = National wealth survey of Korea

The present population of both North and South Korea is approximately 68 million, about 10 million less than that of Germany. Pyo's computation of physical capital stocks combines the polynomial benchmark method and the perpetual inventory method using national wealth survey data.

Kukpu t'onggye chosa pogo = National wealth survey of Korea

The global economic disparity among nations is accompanied by equally devastating inequality within the nation-state. OECD Economic Surveys are periodic reviews of member and non-member economies. In this chapter we review the evidence with regard to recent changes in the distribution of income in Korea.
