ERIC

Emphasis is on classroom use of demonstration panels, overhead projector transparencies, and combinations of both. It consists of the following ten chapters: 1 Helping pupils to choose to abstain; 2 Ethics, morals and cultural values; 3 Teaching reproductive health and HIV; 4 Understanding HIV and AIDS in Uganda; 5 Gender, children's rights and responsibilities; 6 Reproductive Health; 7 STIs, HIV and AIDS; 8 Life skills; 9 Guidance and counseling; 10 Messages for assemblies, clubs and classes. Anti-AIDS clubs were originally formed to educate young people and their friends and families about HIV and AIDS.

A Handbook for Anti

The objectives of PIASCY are as follows: to increase and sustain HIV and AIDS education for in-school youth; and to increase the capacity of parents and teachers to engage in constructive deliberations with young people on HIV and AIDS.

Less extensive chapters cover descriptive outlines of the two types of materials, general considerations of design and method, and a statement of general purposes.

A Handbook for Anti

In SNNPR state, Ethiopia and in other countries, Anti-AIDS clubs have been working to encourage young people to learn about HIV and sexually transmitted diseases, but most importantly, to change their behaviour.

ERIC

It was initiated to encourage openness amongst teachers and students and to equip youngsters to confront HIV and AIDS through sex education. It provides facts and information about HIV and AIDS, and ideas for club activities, which may be useful for both existing and new clubs. An accompanying chapter provides specific examples and diagrams of these materials.

It also contains contact details. The Presidential Initiative on AIDS Strategy for Communication to Youth PIASCY is a strategy introduced by the Ministry of Education and Sports in Uganda, aimed at helping teachers to provide accurate information to young people, who are at great risk. Classroom activities are included within each chapter.
