STOP Formula Grant Program

Methods are being developed for preparing instrumented fuel plates for use in 8M-1 type fuel elements for in-pile test evaluation. NOTE: The latest versions of Adobe Reader do not support viewing PDF files within Firefox on Mac OS and if you are using a modern Intel Mac, there is no official plugin for viewing PDF files within the browser window. The interaction of sodium with 316 stainless steel appears negligible during static testing.

How to Write a Progress Report

The surface-water monitoring consists of 1 rainfall-runoff characteristics near the mine, and 2 surface-flow conditions and water-quality characteristics at Moenkopi Wash at Moenkopi. Progress reports used by teams encourage engagement and transparency.
