## Sea lion

The cafe was good value for money and provided much needed shelter from the driving rain during our visit. Other techniques include potentially limiting access of other males to females. The Galapagos Islands goes through seasonal changes in sea surface temperatures, which consist of high temperatures from the beginning of January through the month of May and lower temperatures throughout the rest of the year.

## What's the difference between seals and sea lions?

They can also give birth in captivity and the offspring will have a very high chance of survival. However, this shunt reduces the amount of compressed gases from entering tissues therefore reducing the risk of decompression sickness.

## ODFW California Sea Lion Management

Males sea lions generally live alone and form harems during the breeding season that may last for several months.

## Sea Lion

Protecting the land where they bask in the sun and where they mate is also important.
