## Արխ Սանդեսն

I had to rely on the printed memoirs of some Turkish, Iraqi, Syrian, Egyptian, British and American politicians and diplomats of the time, as well as certain issues of relevant newspapers and periodicals.

### Ara Sanjian

He is the author of Turkey and Her Neighbors, 1953-1958: A Study in the Origins and Failure of the Baghdad Pact 2001 , as well as a monograph and a number of scholarly articles. Papers accepted should be submitted to JSAS for publication.

### Professor Ara Sanjian

This study focuses on an important period in Turkish-Arab relations and uses a variety of source material in five different languages. In preparing this dissertation, I relied mainly on West European and US archival material, especially the British Foreign Office General Correspondence FO371 files kept at the Public Record Office now the British National Archives in London.

### Ara Sanjian

This is the edited transcript of an interview given to the Hamatext website in November 2015. I suggest that while genocide recognition after the fiftieth anniversary of the Armenian genocide in 1965 introduced a shared ground between the formerly hostile Armenian camps, by the mid-1980s, the prevailing institutional divisions produced homeland-centered and diaspora-centered paradigms of diasporic belongings. The Armenian presence in the Untied States has been marked in the public sphere by religious, political, philanthropic, youth and cultural organizations, Armenian language periodicals, and, after 1965, by the growing number of Armenian day schools, and more recently by radio stations and TV channels.

While political struggles have also been addressed, events that have shaped the tensions, conflicts, competition and cooperation within and across the Armenian-American communities since their inception through the Cold War and beyond still require serious scholarly attention.
