I just finished reading this book and was very impressed.

## The Value and Momentum Trader: Dynamic Stock Selection Models to Beat the Market By Grant Henning

From the various investment approaches, including momentum, value, growth, and fundamental and technical analysis, Henning has chosen the best elements of each and fine-tuned a trading system—grounded in Excel-based research methods he has developed—that works in turbulent markets. Risk involved and you should make your own decision. However, the methods outlined here have been tried and tested over many months and years of market warfare in both bull markets and bear markets.
