## Old Corrugated Cardboard Recycling

Fully Integrated Recycling Solutions Provider. He his a member of the Administrative Committee.

## Valmet to supply steam profiler and condition monitoring solution and services to Zhejiang Jingxing Paper Co., Ltd. in China

Originally developed by Voith in Brazil, this TAD like process produces high end products similar to the fluffy and absorbent paper offerings produced with the traditional Through-Air-Drying TAD technology. The Cascades innovation management committee CIMC is now implementing this strategy, namely i-LEAD Innovation.

## The Mead Corp

This was followed by successive joint mills built in , Georgia, in 1951 and Phenix City, , in 1966. The products manufactured by the seven manufacturing mills consist of 24% linerboard, 58% corrugated medium and 18% boxboard.

## EX

The new power plant also aims to reduce CO<sub>2</sub> emissions from Yashio Mill. Recovery rates outside of Japan will be pushed higher by the expanded use of recovered paper in most paper and board grades, with the exception being printing and writing papers.

## Products & Services

The report also reveals that the electrical goods end-use sector will see the highest levels of growth. The economic recession of 1907 and the tremendous cost of moving almost destroyed Mead once again, but the sale of the Dayton property saved the company.

## Corrugated & Paperboard Boxes

Whitaker and President George H. Italy ; Mead Management Services S. Mead contracted several Japanese companies to manufacture copiers compatible with the paper.
