## New study analyzes land tenure in Ghana

Nina also remarks that the Republic of Congo is one of the few countries that recognizes customary ownership and this has thus created the possibility for communities to assert their customary land tenure rights. By de-mystifying property rights, FOLA can contribute to more informed decisions that support—not undermine—land and resource rights in Africa.

## Land Tenure, Property Rights, and Rural Economic Development in Africa

Without these additional conditions, property rights alone have minimal impact on land tenure security and the commitment of smallholders, particularly women, to invest in improvements or innovations.

## CAB Direct

The more we do, the greater the possibilities for transformation and inclusion will be. There are two general types of customary land management: dependent land management and independent land management. It is common to find more than one customary system in use in a country or region at a given time or circumstances where statutory land tenure is legally in place but customary systems are socially recognized.

## West and Central Africa

With 12 per cent of its population under the age of 15 and around 64 per cent under the age of 24, Western and Central Africa has one of the youngest populations in the world.
