Believable climate futures explored by Nepalese farmers

This is the most opportune time for the government to revisit the Horticultural Producers Cooperative Marketing and Processing Society (HOPCOMS).

Projects

Potato project to unlock potential of crop in the Rift Nakuru County government in partnership with the National Potato Council of Kenya, Egerton University, and Baraka Agricultural Training College will hold the South Rift Region Potato Fair on August 31 at Baraka Agricultural Training College in Molo.

Research Series Issue 62: The spillover effects of seed producer groups on non

In response, the Government of Nepal has developed the National Adaptation Program of Action , which has identified climate adaptation needs across 6 cross-cutting sectors: agriculture and food security, water resources and energy, climate-induced disasters, forests and biodiversity, public health, and urban settlements and infrastructure.

Research Series Issue 62: The spillover effects of seed producer groups on non

A significant proportion of the households in the study considered that the production of staple food crops had declined over time, notwithstanding technological advances, leading to a decline in local food availability and household income. I agree with Patricia that strategic planning can be conducive for sustained impacts. The launch event which was attended by seed growers, international agriculture funders, dignitaries, and government officials and was moderated by AECF Board Chair, Lord Paul Boateng.

Nature is our best defence

The government could encourage these institutions to pool the available seed material and immediately initiate large scale seed multiplication

programme by SAUs, KVKS and farmers, so that the actual seed availability by July 2020 is a lot more than what it is now. Int J Multidiscip Curr Res 2 1:234–240 This study was undertaken under the Koshi Basin Programme of ICIMOD funded by the Department of Foreign Affairs and Trade DFAT of Australia, and the Himalayan Climate Change Adaptation Programme HICAP implemented jointly by ICIMOD, CICERO, and Grid-Arendal and funded by the Ministry of Foreign Affairs, Norway and Swedish International Development Agency Sida. Kathmandu, Nepal: Nepal Water Conservation Foundation and International Centre for Integrated Mountain Development.

Nutrition

Translations are not retained in our system. Special thanks go to our all project collaborators and partners who participated in the focus group discussions, surveys, and PRAs. For surface water monitoring, different CLGs were assigned different water-quality parameters and were given a portable LaMotte GREEN Water Monitoring Kit LaMotte, Chestertown, MD, USA.
