AC 43.13

Do not smoke around aircraft maintenance areas where chemicals and fuels are flammable. Evaluate aircraft access areas and job tasks with limited egress and follow confined space procedures if needed. Tall, heavy aircraft make it hard to see people on the ground when maneuvering in the hangar or maintenance area.

Aircraft Maintenance Safety

Keep hair tied back and avoid loose clothing and jewelry to prevent entanglement with moving parts. Bump caps protect you from an accidental collision with an aircraft part. Fabrication and repair work requires tools such as welding torches, drills, rivets, or grinders.

Aircraft Handbooks & Manuals

These can be concentrated and contain hazardous materials; use material safety data sheets MSDS. Well-lit work areas are safer.

Aircraft Handbooks & Manuals

Work at a steady pace. Posted at 10:09h in , , , by Aircraft Maintenance Safety Aircraft maintenance work includes inspection and repair of aircraft structures, coatings, and systems in hangars and on the air field. Tall aircraft require , , and to reach work areas.

Aircraft Maintenance Safety

Keep tools away and pick up debris near the engine. Aircraft chemicals include lubricants, fuels, coating strippers, paints, and solvents.

Aircraft Handbooks & Manuals

Sturdy work gloves protect your hands from cuts and scrapes while steel-toe work boots with non-slip soles protect your toes and decrease the chance of falls.
