Top 18 Road Safety Rules to Teach Your Students

Being Safe When getting in and out of Vehicles Teach them to be punctual to avoid running behind moving bus and jumping on it after they start moving.

Road Safety Education

Explain to the students that looking around in all directions is called scanning, and they need to scan all the time they are near or on the roads for any vehicles. Statistics show that many hundreds of kids are being injured every day due to road accidents. So make it a practice to be calm on the roads and make it a point to use the pedestrian crossings only.

A Guide to Safety in the Classroom

There were many learners who went through schooling without ever being exposed to road safety education. Make them aware of such situations and teach them the importance of staying safe and patient while on roads. Primary Challenges and Choices Kindergarten to Year 6 Challenges and Choices is a road safety curriculum program that takes a resilience approach building on children's strengths and developing personal and social skills so they are able to manage themselves and others in traffic-related situations.
