No statement therein is considered to be an official requirement or an official interpretation of the NESC. Guys in parking lots were required to be marked for visibility.

National Electrical Code Smoke Alarm Residential Requirements

I have sold several reprints via Ebay. New Rule 250D specifies extreme ice from freezing rain and concurrent wind combinations with a new map.

National Electrical Safety Code ANSI C2

Because aluminum has two-thirds the current-carrying capacity of copper conductors of the same size, aluminum conductors were larger.

National Electrical Safety Code ANSI C2

When working above 15 kV phase-to-phase, additional protection such as an insulated bucket or platform must be used.
