## Coat of arms of Denmark

This insignia is almost identical to the and the which can both be traced directly back to King and the in northern in 1219—1346.

## rigsvåben

The current version was established by royal decree 5 July 1972. A medieval ship flag captured by forces from in the 1420s showing the arms of Denmark, Sweden, Norway and Pomerania. A blazon in heraldic terms is: A shield quartered by a cross argent fimbriated gules, first and fourth quarter Or, three lions passant in pale azure crowned and armed Or langued gules, nine hearts gules for Denmark ; second quarter Or, two lions passant in pale azure armed Or langued gules for Schleswig ; third quarter azure, party per fess, in base per pale; in chief three crowns Or for the Kalmar Union , in dexter base a ram passant argent armed and unguled Or for the Faroe Islands , in sinister base a polar bear rampant argent for Greenland.

## Coat of arms of Denmark

First included by King Frederick II.

## Lille rigsvåben 50 kr rød

Sidstnævnte ændring skete efter svensk pres, pga.

## Rigsvåben

Kongevåbnet blev sidste gang ændret i ved kongelig resolution som optrykt i Indenrigsministeriets bekendtgørelse nr. Dette våbenmærke har været forbundet med Island siden det tidlige 1500-tal. Devegge opfattede Ringen som Bogstavet O og henførte Mønten til Oluf.
