The London Money Markets

First published in 1978, Stigum's Money Market was hailed as a landmark work by leaders of the financial, business, and investment communities. It has approximately 75,000 employees working in its various offices. He emphasises, in particular, the importance of various principles of sound banking practice, developed in the late nineteenth century, that helped to stabilize London's money and credit markets.

The Largest Banks in the United Kingdom

The book examines the role of the Bank of England as lender of last resort and the successes and failures of crisis management. It discusses both the overseas operations of European banks and the development of Asian notably Japanese and Hong Kong banks. Its biggest shareholder is the Temasek Holdings which is owned by the Government of Singapore.

It has extensive operations in several countries in Europe, Asia, Middle East, and the US. Subsequent chapters provide more detailed accounts of the railway boom-and-bust and the subsequent financial crisis of 1847, the crisis following the collapse of Overend Gurney in 1866, the dislocation of London's money market at the outset of the Great War in 1914 and the crisis in 1931 when sterling left the gold standard. Its assets are valued at £1,203 billion.

Applications To detect stress in the euro zone banking system, chart the relative change in rates for short- versus long-term loans. This reliable resource is solidly grounded in economic principles and on the key term structure of interest rate relationships. They consist of the money or discount market and the remaining, parallel markets.
