The second is the special niche this volume fills in its overarching theme of the need for a renewed environmental ethic that can bring together these disparate but interconnected views.

**Environmental Ethics and Policy Book: Philosophy, Ecology, Economics by Donald VanDeVeer**

Gudorf Publisher: Georgetown University Press ISBN: 9781589016859 Category: Philosophy Page: 328 View: 358 In this expanded and revised edition of a fresh and original case-study textbook on environmental ethics, Christine Gudorf and James Huchingson continue to explore the line that separates the current state of the environment from what it should be in the future. A spirit of international cooperation and collaboration is needed to meet the challenge. In addition, the editors' careful organization of the topics and illuminating section previews keep students focused on the most essential points of current environmental debates.

Part 2 An introduction to ethical theory: moral argument and ethical theory influential ideas and theories.

**The Environmental Ethics and Policy Book: Philosophy, Ecology, Economics**

The editorial comments are concise and probing, and the illustrative articles and essays are classic and thought provoking. This book has soft covers. Thomas Aquinas' *Summa Theologiae* to a particular environmental region, namely the Loess Hills of Iowa.

**Environmental Ethics and Policy Book: Philosophy, Ecology, Economics by Donald VanDeVeer**

Through a mix of classic and new essays, it discusses applied issues such as pollution, climate change, animal rights, biodiversity, and sustainability.

**The Environmental Ethics and Policy Book: Philosophy, Ecology, Economics**

He encourages the reader to explore this question, considering techniques used to value the environment and critically examining 'light green' to 'deep green' environmentalism. Written in clear and engaging prose, the book provides an historical perspective on the relationship between humans and nature and explores the limitations and possibilities of classical ethical theories in relation to the environment.
