### **Paradise man taken into custody for altercation**

Bernard Walsh is in Hawaii on family business, escorting his querulous father to the bedside of a long-forgotten aunt. . It's a very long way from home.

### **'I ended up in paradise instead of homeless:' News 6 viewer thanks property manager for rental help**

The main character is likeable; I related to his falling out with established religion. Think to all those California's wildfires. My goodness the author does get through some big words during the theological passages but then that is wholly appropriate.

### **Paradise News**

The book chronicles the life of a young girl in Paradise, California, before, during, and after the Camp Fire of 2018. This was the first David Lodge novel I read.

### **Paradise Rebuilding and Recovery: Public input wanted for Hope Plaza design**

JB bases his entire artistic career on painting portraits of his friends, while Malcolm takes care of them by designing their apartments and houses. The cheapest way to do it is to join a package tour. How could Sir Paul McCartney forget about his ukulele? The ambulance scene for instance was pure genius.

### **Paradise man taken into custody for altercation**

On the whole this is a t A very different book from my usual choices. When David Lodge wrote this book early 1990s Hawaii were still in the newsreels and in the travel agencies brochures. The book is playfully cinematic, bringing to life a cast of English characters from the London airport to the tacky lounges of Waikiki.

### **Paradise News by David Lodge**

Surrounded by quarrelling honeymooners, a freeloading anthropologist and assorted tourists in search of their own personal paradise, and with his father whisked off to the hospital after an unfortunate accident, Bernard is beginning to regret ever coming to Hawaii. I cannot imagine a better fit for a former pastor to read while vacationing in Hawaii! I appreciated the way he focused on a single main story involving a forty something theologian who doesn't believe anymore.

Lodge can write, make no mistake about that and his plots hang together well.
