Leaf 1: recto, colored frontispiece; verso, blank.

**Tetrapod Zoology**

Original publisher's printed gray wrappers with framed upper cover containing wood-engraved corner designs. This battle will be fought in the classrooms of the world. How then can we say that, based on such variations that Neanderthals belong to a different group or species than Homo sapiens? Bombay, Bombay Natural History Society, 1941.

## **Tetrapod Zoology**

Anticipating the assumption of direct control over India by the Crown, there was a campaign to eliminate the system of patronage that had been rife in the East India Company before such spoils might become a tool of the government at home. In other words, if one chose a chimp at random, this chimp might be as many as 81 substitutions different from the chimp swinging on the branches right next to him.
