## **Latina Girls: Voices of Adolescent Strength in the U.S.**

The growth of federal support for abstinence-only programs is remarkable when the amount of funds dedicated to these programs is compared with the amount allocated for past federally supported adolescent pregnancy prevention efforts. For a small group of girls, negative feelings about their bodies and their efforts to achieve or maintain thinness contribute to the development of disordered eating. Thick and coherent data from 10 countries of varying socioeconomic status.

## **Programs and Partnerships**

The experts chosen for each of the questions were carefully selected for their expertise in the particular area.

## **Latina Girls: Voices of Adolescent Strength in the U.S. on JSTOR**

Fear that confidentiality will be breached has been found to be the leading reason why adolescents do not seek health care.

## **Understanding Factors that Shape Gender Attitudes in Early Adolescence Globally: A Mixed**

Project MUSE® Project MUSE is a leading provider of digital humanities and social sciences content, providing access to journal and book content from nearly 300 publishers. There must be a focus on what is working for adolescent girls, and why to assist adolescent girls in navigating these risks during their development.

**Denner, Jill & Guzman, Bianca L., eds. *Latina girls; voices of adolescent strength in the United States.***

The failure of existing policies is evident in the persistently high rates of teen pregnancies and STDs among adolescents.

## **Table of contents for Latina girls**

The initiative offers life-skills training to young girls to help them build leadership skills and know their rights. This suggests a need for a new concept of health and stress resistance that locates the struggle between the girl and her world, not within the individual girl, and that holds the adults in girls' environments accountable for providing girls with experiences and opportunities for them to understand, engage with, and potentially transform what limits and harms them.

### **Understanding Factors that Shape Gender Attitudes in Early Adolescence Globally: A Mixed**

However, hopeful futuristic thinking was not consistent among respondent subgroups. In the past and present, adolescent girls have learned that their needs for closeness and relatedness conflict with the competitive attitudes that drive success, yet they are expected to achieve in this society, in effect, being forced to choose between being true to themselves or realizing their goals. Because competent practice relies on relevant and comprehensive education and training, educators of psychologists must offer training programs with specially designed curricula, covering courses as well as applied training, that address these special needs and problems.
