That's pretty impressive, but what was even more impressive, was when I went to scarify the wall in preparation for the exterior parge coating, I couldn't get a scratch even into the surface and even using a segmented diamond wheel on my DeWalt 4.

### Structural Concrete

Key-Scape is a full-service commercial landscape construction company with extensive knowledge and experience in the landscaping of commercial, industrial and institutional facilities. Your crew chiefs have been professional, courteous, and helpful throughout. Regular concrete can typically withstand a pressure from about 10 MPa to 40 MPa, with lighter duty uses such as blinding concrete having a much lower MPa rating than structural concrete.

FX Concrete We are the premier professional concrete company that you will want to trust all of your concrete related projects to.

### STRUCTURAL CONCRETE

This commitment creates a culture of safety on our jobsites, in our manufacturing facilities, offices, and in our private lives. Due to the inherent higher total moisture content of lightweight concrete it typically takes a longer time than normal weight concrete to dry to levels that might be

considered adequate for application of floor covering materials.

### **The Home Depot Logo**

While all high-strength concrete is also high-performance, not all high-performance concrete is high-strength. It bonds well to old concrete and can, therefore, be used for resurfacing road slabs and other repair work.
