aching, soreness, throbbing, and swelling.

GYN Cancer Signs & Symptoms

If a sperm cell fertilizes the egg, it results in pregnancy, and the fertilized egg will implant on the uterine wall and develop into a fetus. Because of decreased muscle control in the urinary tract and pelvic area, you may often feel a sudden urge to pee, leaving you beelining for the bathroom. Morgan M, Boyd J, Drapkin R, Seiden MV.

Recognizing Gynecological Symptoms

This improves comfort during sex. With proper diagnosis and treatment, the symptoms can be managed.

Implantation Signs and Symptoms: Bleeding, Cramps, Pain, and More
