CDC

All facilities should already be in compliance with this requirement. Those provisions require that individuals have access to surveys of the facility conducted by federal or state surveyors and any plan of correction in effect with respect to the facility for the preceding 3 years. We thank the thousands of commenters who provided comments during the extended period.

## Regulations

We proposed to revise § 483.

## Summary of Long

Patients are further prodded by an online tracking and reminder system

## Program List

LTC facilities seeking to be Medicare and Medicaid providers of services must be certified as meeting federal participation requirements.

## Inpatient Psychiatric Services for Individuals Under Age 21

It shall not be necessary to show the recurrence of the dangerous conduct, either harmful or debilitating, within the past 30 days. Furthermore the commenter suggests that the definition should specify the actions that facilitate individualized care and not just focus on the resident as the locus of control. § 7304 g 2 , may be transferred if prior notice has been given to and no objection has been received with 20 days from the judge and district attorney from the committing court.
