## New Zealand Journal of Ecology 2019 Special Issue

Knowledge systems for sustainable development. Results demonstrate the broad suitability of the tool, which previously had been limited to natural resource management, and its capacity to assist with the identification of corresponding system dynamics.

## Ecological Context of Development : New Zealand Perspectives Majorie Van Roon 9780195584356

The inventory revealed the emergence of an SES perspective, linking marine- and land-based issues and concerns, and highlighted the ways in which social and economic issues in particular were prioritized. As a small, peripheral region, dependent on primary and tertiary economic activities, Kaikōura is broadly representative of the social, environmental, cultural, and economic challenges facing rural regions.

## New Zealand Journal of Ecology 2019 Special Issue

Consequently, EEW developers and emergency managers need to consider what creates the most benefit: providing messages about the time available before shaking so people can take safety actions or a simple message about imminent strong shaking which prompts immediate protective action.

## Johanna Garnett

For a small community, the influx of over 1,700 rebuild workers necessitated greater coordination and collaboration between social welfare agencies, local government, and private businesses.

## DeWayne Shoemaker

More work is needed around how best to convey and support this information Sutton et al. Publisher: Emerald Group Publishing Limited Copyright © 2015, Ian Yeoman, Amalina Andrade, Elisante Leguma, Natalie Wolf, Peter Ezra, Rebecca Tan and Una McMahon-Beattie.

## **Current Issue:**

Driven in part by the rise in weather-related damages, the trend in rising losses is occurring against the backdrop of continued population growth, rising inequality, and political and economic instability Mechler and Bouwer 2015. Mātauranga Māori has links to western concepts of sustainable management, sustainable development, integration, ecosystems, interconnection of ecosystems, holism and intergenerational equity.

## **Customs & Social Culture in New Zealand**

Minimum warning time needed to respond We asked survey participants the minimum time that they would need to undertake a response to the warning i.
