## Racer (Kennywood)

The trains consisted of three-seat cars with a of 18.

## Racer (Kennywood)

When it was built, it was the largest in the world. The Möbius layout is caused by the setup of the station, where the trains turn away from each other upon dispatch.

## Racer (Kennywood)

Each train returns to the station on the opposite side of which it began. Built by Charlie Mach and designed by the legendary , the Racer opened to the public in 1927 and is one of the oldest operating roller coasters in the world.

## Racer (Kennywood)

The new Racer's trains were locked onto the , which permitted banked curves as well as curves on the dips.
