### Making Decisions with Families at the End of Life

Make sure you know how to contact a member of the medical team if you have a question or if the dying person needs something.

### Depression and Indecision: Trouble Making Decisions

For people with , tube feeding does not prolong life or prevent aspiration. This usually means the person has to be restrained, which could mean binding his or her hands to the bed. Try to keep those who know the patient best in the center of decision making.

### Decision

Antibiotics are medicines that fight infections caused by bacteria. Many times power considerations and agenda setting determine decisions rather than calculations based on the decision's parameters.

### Making Decisions with Families at the End of Life

Throw in problems enlisting our executive functions and a desire to get things over with, and we make a lot of decisions we wish we could take back. The ICD should be turned off at the point when life support is no longer wanted.

### Understanding Health Care Decisions at the End of Life

My son, now 10 and in fourth grade, was. Children lack the metacognitive knowledge necessary to know when to use any strategies they do possess to change their approach to decision-making.

### Depression and Indecision: Trouble Making Decisions

In this, the process mirrors.

### Making Decisions with Families at the End of Life

Members finally make a decision and provide justification for it. .

### **Analysis Paralysis and ADHD: Trouble Making Decisions?**

Many antibiotics have side effects, so the value of trying to treat an infection in a dying person should be weighed against any unpleasant side effects. Truog RD, Burns JP, Mitchell C, Johnson J, Robinson W. Both styles are utilized in the game of chess.
