With regard to the last of the channels, meetings and informal dialogue, all three governments prefer this approach and use it continually. Retrieved July 13 2017 from:

Research and International Trade Policy Negotiations

LLA stands for Local library Authority 659. While these differences are significant, however, more important to the whole 65 COPYRIGHT picture is the basic approach common to copyright laws the world over; for the end purpose of fostering the growth and spread of learning and culture, authors are given legal rights in the reproduction of the works they create so that they may derive the rewards afforded by the market for their works, but those rights are kept within limits as necessary to facilitate the use of their works by the public. Evaluation of Information Systems
