to toss that never-been-used soufflé dish.

How to Plant Bulbs

. You may need a little spring respite from the winter doldrums, too. In milder areas, plant in late October or early November after the soil cools — if you need to store them before planting, keep them in a cool location.

The Beginner's Guide to Bulb Gardening

Building your essential baking toolbox starts here! Planting a mix of these varieties provides color from spring into fall.

Bulb Gardens for Three

Summer-flowering bulbs should be planted in mid to late spring.

Bulbs for Florida

Heavy, wet soil benefits from sand; too-light soil will support bulbs better with the addition of the peat. Summer bulbs aren't tolerant of cold temperatures and should only be planted after the ground warms up and there's no longer a threat of frost. For those who already own these tools, this list may finally provide the motivation you need
