## Accreditation: Removing the Barrier to Higher Education Reform

Butler, PhD, is Director of the Center for Policy Innovation at The Heritage Foundation. Well, we do have a need for affordable housing in this country.

## Reforming Higher Education

The law is revised in 1998 and becomes. This can reduce the need for each and every institution to try to offer a comprehensive set of services and support facilities.

## Higher Education System Reform

Elsewhere, as the the to protest at the state capital. Recognizing the dangers of anti-competitive practices, business leaders need to get off the proverbial sidelines and engage in the battle to open up competition in higher education.

## Higher Education Reform

District Court of Pennsylvania rules in the case of that teaching as an alternative to evolution is a violation of the First Amendment. Because the state government is not covering a significant portion of the cost of attendance with taxpayer money, private institutions usually have published tuition and fees that seem much higher than those of public ones. What it would do: would require that the state Attorney General approve sales of nonprofit colleges and universities to for-profit companies.

## Higher Education System Reform

Can it be made to work better? On the one hand, they can protect consumers from charlatans and low-quality providers, and in technical areas where consumers often do not feel able to judge quality accurately—areas such as emergency medical care—they can provide an assurance of excellence. That student could mark the beginning of the end for the business model that has sustained higher education for decades. Higher education has opened opportunities for millions of people, and in doing so has bettered our economy and society.
