14 Amazing Facts You Didn't Know About Our Ocean

And 150 new species of fish are discovered every year. As coastlines go up we are losing many islands, villages, and communities globally through the impact of our carbon emissions.

The Amazing Ocean: The Facts of Life Under the Sea

It is about three times higher than Angel Falls in Venezuela, while the Angel Falls waterfall is usually called the highest waterfall on Earth.

Top 20 largest sea creatures ever known on earth

It happened so surprising that, a ship crew named Carrie Son was found alive by sea divers who had survived under the sea for 3 days. It is only once you are below the waves that you can begin to fathom — even slightly — what a miracle our oceans are. For instance, how many people know that the Mediterranean Sea is home to numerous species of whales, including the fin whale, which happens to be the second largest whale in the world and also the fastest in the family? Earth has never been free of ice since the Eocene epoch — a period of elevated temperatures that occurred 30 million years ago.

20+ Incredible Facts About the North Pole That Might Surprise You

Fact 2: Polar-Orbiting Satellites NOAA-20 and the Suomi NPP, these two satellites in the Joint Polar Satellite System constellation, from pole-to-pole 14 times a day as the planet rotates on its axis.

The Amazing Ocean: The Facts of Life Under the Sea

These rogue waves are not necessarily the biggest waves ever found at sea, but isolated waves way bigger than what any crew might expect in a given sea state.

Amazing Facts About Ocean Waves • The Grom Life

Interestingly, he strictly prohibited the inhabitants of his dominion to leave, which is a rather apt analogy for hadal fauna, as these species are often confined to trenches and are rarely capable of going elsewhere.
