## Overview

Older patients reported significantly lower frequency scores for feeling nervous, dry mouth, nausea, and feeling bloated. We also note that these existing reviews assess only pharmacological treatment options; high-quality evidence is lacking in other modalities, however we found evidence of ten studies reporting either primary or secondary study outcomes of non-pharmacological therapies.

## Rapid diagnostic tests to improve treatment of malaria and other febrile illnesses: patient randomised effectiveness trial in primary care clinics in Afghanistan

In addition, specific details on the doses of CTX and RT received by these patients were not collected for these studies. This broadly reflects the prevalence of disease manifestations of BD, but not the severity. Of the 32 MSAS symptoms, after controlling for significant covariates, older patients reported significantly lower occurrence rates for 15 46.

## Histrionic Personality Disorder; Causes, Symptoms & Treatment

A review of the prevalence and impact of multiple symptoms in oncology patients. . The psychiatrist may try different drugs, different doses or combinations over time to achieve the desired result.

## Autoimmune diseases and immune

Schizophrenia spectrum and other psychotic disorders. This study suggests that there is a risk of substituting the over-prescription of antimalarials with over-prescription of antibiotics. Again, this reflects the relative frequency and severity of ocular manifestations in BD.

## Coronary Artery Disease Symptoms: Types, Causes, Risks, Treatment

Setting Two areas of Afghanistan where Plasmodium vivax and Plasmodium falciparum are endemic; one area with moderate transmission eastern region and one with low transmission northern region.

## **Preventing Misdiagnosis of Women**

Share this information with your family members and caregivers so they can recognize the symptoms of a heart attack and when to seek emergency treatment.
