Whereas Comte viewed the goal of sociology as recreating a unified, post-feudal spiritual order that would help to institutionalize a new era of political and social stability, Marx developed a critical analysis of capitalism that saw the material or economic basis of inequality and power relations as the cause of social instability and conflict.

#### **Interrelationship Between Individual and Society, Individual and Society, Introduction to Sociology, Sociology Guide**

Sociology is a multi-perspectival science: a number of distinct perspectives or paradigms offer competing explanations of social phenomena. The interaction dynamics of such substantive areas as socialization, normative and deviant behavior, learning and achievement, the social construction of the self, and the social identities will be considered. However, what Durkheim observed was that statistical rates of suicide remained fairly constant year by year and region by region.
