## Manic Depressive Disorder

Your primary care provider will usually begin by asking you questions about your symptoms and medical history.

## Bipolar Disorder (Manic

For now, all that can be done is to try and limit the severity of the symptoms as much as possible. When you become depressed, you may feel sad or hopeless and lose interest or pleasure in most activities.

## Manic Depression: 10 Symptoms of Manic Depression

Bipolar disorder in adults: Choosing maintenance treatment. Lamotrigine is used alone or in combination with other mood stabilizer medications. However, the symptoms do not meet the diagnostic requirements for a hypomanic episode and a depressive episode.

## Bipolar disorder

It has proven helpful in controlling mania and depression and preventing depression and manic episodes. Depending on how they define the disorder, researchers estimate that bipolar disorder occurs in up to 4% of the population. The person may not feel that anything is wrong, but family and friends may recognize the changes in mood or activity levels as possible bipolar disorder.
