Kitchens & Baths by Monic

No wonder thanks for clearing that up. But, you know, nail or no nail, someone needs to eat the ruined quiche. These chairs have a vintage look because of the shape, but are paired with a color that's on trend for 2019 — making them ideal for Monica's space.

25 Things You Didn't Know About the Sets on

I certainly became painfully aware of that while watching it with my young teenager! As far as the apartments of Friends characters go—I loved the episodes in which Monica and Rachel trade apartments with Joey and Chandler, especially when Monica refinishes the floor in the boys apartment and tries to make it homey. See the seller's listing for full details.

Monica's Apartment

The apartment has two bedrooms, a bathroom and a balcony in addition to the main living area. So glad I found it as it is so hard to come by authentic Friends TV props. I always was amazed how they could live in those cool NY apartments with their meager earnings — not very realistic —also their great clothes! Only when he truly saw the degree of cruelty and abuse Monica was being forced to endure which almost made her resign that he stuck to his part and played the arrogant employee.

I Built A Tiny Model Of Monica's Kitchen From (11 Pics)

I did know what Pottery Barn was before that episode aired, but I had no clue about IKEA. Put it this way... if she actually did have 11 types of towels, you would never know because everything is so mis-matched already! If you haven't already tried them, you really must.

Items from Monica's apartment in 'Friends' and their 2019 counterparts

I get them now, though! She was hired as a line cook at Spago Hollywood under the direction of Wolfgang Puck and Gina DeCew Moi. Her mission is to shine a spotlight on talented artists and inspiring stories. Good point about how they mention IKEA on the show from time to time, too.
