The Vegetarian Low Carb Diet: Elliot, Rose: 9780749926496: vivchar.tom.ru: Books

Rose Elliot vegan and vegetarian cooking

If you're looking for a single cookbook that can provide a wide range of vegetarian recipes I'd recommend Madhur Jaffrey's World Vegetarian over this book. Just some ideas: I was using Splenda but now I've ordered a natural sweetener on Amazon because this author recommends natural sweeteners opposed to artificial. The recipes tend to be quite simple, using readily obtainable ingredients, so I can see that if you are new to the concept of vegetarian cooking it would be a good introduction.

Whether you're a long-time vegetarian looking for new inspiration or a non-vegetarian who enjoys cooking and eating great food, this book has exciting ideas for all occasions. If you are new here, you may want to learn a little more about how this site works. I have tried many of the recipes and the book has inspired me to be more creative.
