The reference tables are based on fundamental research and are consistent with the current edition of the International Practical Temperature Scale 1968 and are not limited to applications in the field of industrial process measurement and control. The Comité International des Poids et Mesures CIPM at its meeting in

October 1968 agreed to adopt the International Practical Temperature Scale of 1968 IPTS-68 in accordance with the decision of the 13 e Conférence Générale des Poids et Mesures, Resolution 8, of October 1967. Around the same time, Ole Roemer saw the need for two fixed points, allowing interpolation between them.
