Microsoft Office

When multiple individuals collaborate on a project and produce documentation of this project, the document is shared like the previously mentioned contract. I noted a few issues and oen did not get fixed. No response back that I know of.

How to Use Microsoft Word as a Desktop Publishing Tool

In Office Online, highlight the text for proofing in the non-default language. This means, every time I begin a paragrph or senetnce, I have to delete the first letter, which is not at the end of a sentence and go back to the begining of teh sentence and fix the first word. This means that you can't use character strings to represent equations and it makes creating MTEF a little harder with programming languages like Visual Basic.
