## History

Too often hazards remain uncorrected because of lengthy contest proceedings-periods that can last a decade or more. If the finished cement is used to manufacture concrete structures, such as culverts, this is no longer mining under MSHA, but manufacturing under OSHA.

## Mine Safety Resources

The representative of the miners who is also an employee of the operators shall suffer no loss of pay during the time of his participation in the inspection. Split-estate lands are lands where the ownership of the surface estate and mineral estate have been severed.

processes also may require applicants to secure public input.

### **Miner Safety and Health Act of 2010**

It is hereby notified that the President has assented to the following Act which is hereby published for general information:- ACT To provide for protection of the health and safety of employees and other persons at mines and, for that purpose - to promote a culture of health and safety; to provide for the enforcement of health and safety measures; to provide for appropriate systems of employee, employer and State participation in health and safety matters; to establish representative tripartite institutions to review legislation, promote health and enhance properly targeted research; to provide for effective monitoring systems and inspections, investigations and inquiries to improve health and safety; to promote training and human resources development; to regulate employers' and employees' duties to identify hazards and eliminate, control and minimise the risk to health and safety; to entrench the right to refuse to work in dangerous conditions; and to give effect to the public international law obligations of the Republic relating to mining health and safety; and to provide for matters connected therewith. CHAPTER 4 TRIPARTITE INSTITUTIONS Establishment of tripartite institutions 41.
