## A Historical and Legal Study of Sovereignty in the Canadian North: Terrestrial Sovereignty, 1870

But unless the federal government starts to correct the situation soon, Canada is at serious risk of losing control and sovereignty over its Arctic, thus destabilizing the region irreparably. Norway refused the cession of their country to Sweden and adopted a new constitution. Some aspects of this program, such as the attempts to organize these territories into districts, define their boundaries, and provide at least for the Yukon the basic elements.

### Otto Sverdrup

In 1945, the United States claimed jurisdiction over the natural resources of its continental shelf beyond its territorial limits; other nations quickly followed suit.

### Norway really drop their absurd claims such as that to the Otto Sverdrup Bi

Unknown to the West, the Soviets established a second drifting station — North Pole-2 — in 1950, which determined that more observation of the Arctic was required. From the 1860s, a nationalist movement grew in Finland and it won its independence in 1917 after the February Revolution and the October Revolution. They have failed to provide enough resources to comprehensively monitor, patrol and protect our northern waters.
