Excerpt from Brazil Today and Tomorrow Everything that has been done to bring Brazil into the race of nations is the work of the last hundred years; the most intense period of rapid building since the establishment of the republic has lasted less than thirty years, for in that time has taken place the great acquisition of private fortunes in the industrial regions of Brazil. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy.

. This is not because the country is tropical or worthless, but because it is unopened and unknown. In Brazil much progress, much creation, has come from within, and will come to an even larger degree in the future with improvement in technical education; but the country is enormous, the centres of population have always lain on or near the sea border, and interior Brazil, the virgin heart of South America, remains practically untouched.
